

REPORT COURSE COMMITTEE

CURRENT SITUATION ABOUT PRUNNING TREES PROGRAMM

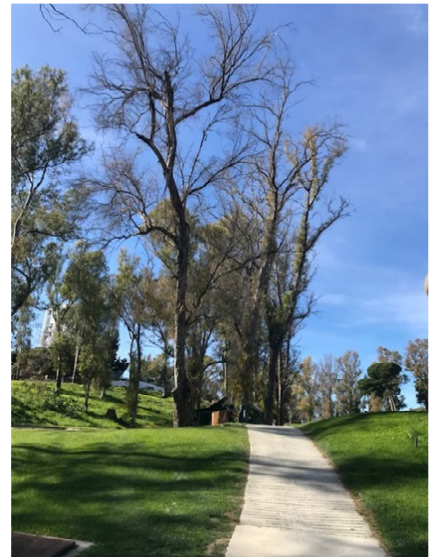

EUCALIPTUS

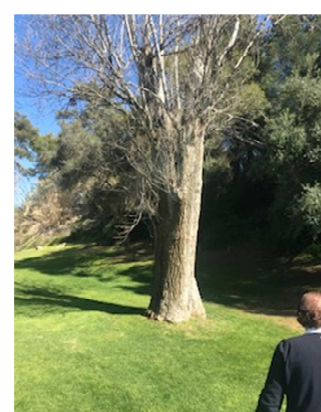

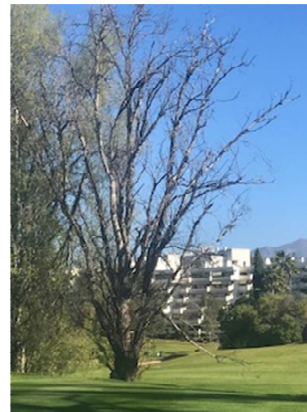

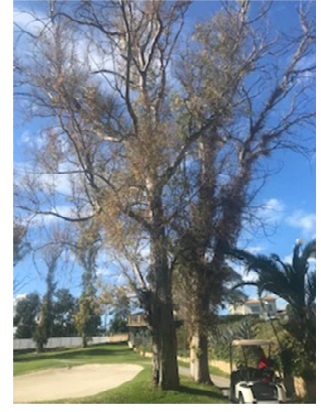

## CHOPOS

These trees are affected  
By "Psilido" and they were  
*Extremely dangerous*

## MANY TREES ALSO ON THE NORTH COURSE

These trees have been cut down and their stumps also removed  
Currently we have planted 70 trees in compliance with the regulations of the City Council, but facing the Autumn - Winter we will follow the guidelines of the published reforestation program [programa de reforestación](#).

Likewise, the reforestation program will allow us to carry out plantations not subject to regulations

### **NEW SLIDING GATES**

The program has started, beginning with gates form 5/6 hole and 14/15 of the South course and during the remaining part of 2018 we will undertake the installation of two more gates on the 13<sup>th</sup> South and 10<sup>th</sup> North.

These will open with two systems, one through a numeric keypad and another through the mobile, only Guadalmina Members will have access through the mobile, and it is individual for each device through the IMEI code.

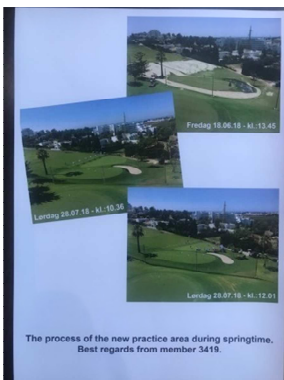

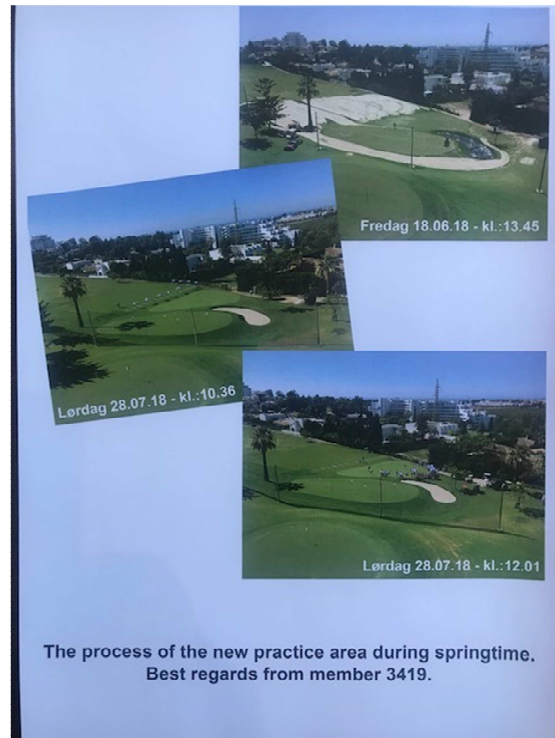

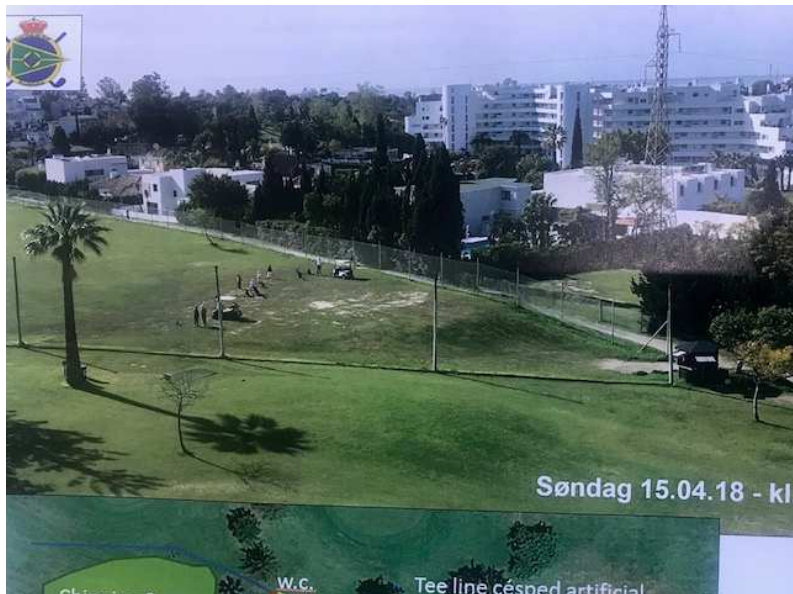

### **NEW PRACTICE ZONE**

The new practice area was executed on time and is in the maturation phase, we hope to open it to the public during the months of November

and December, once the construction of the house that will house the new ball machine, as well as toilets and some dependencies for the Professionals, in this sequence you will be able to see the development of the works.

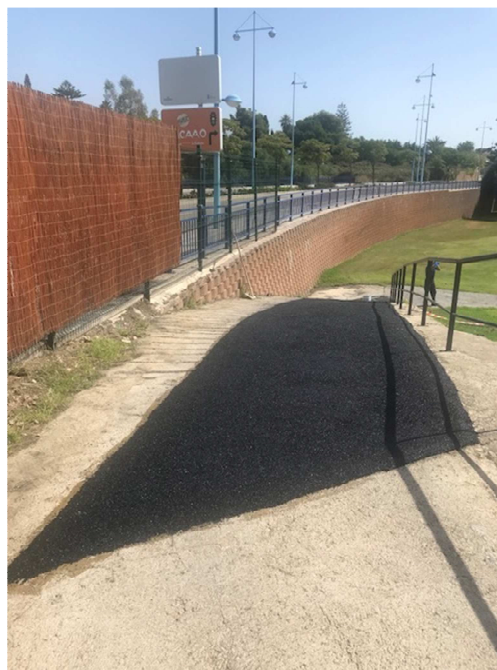

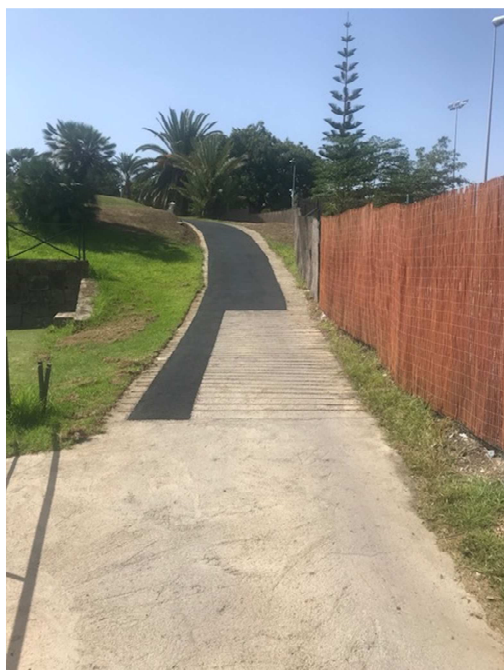

## **MAINTENANCE WORKS**

During these months we have carried out routine maintenance work, and we have maintained the courses for the game, specially during the summer with all the tournaments.

During September we have performed hole coring, topdressing and some treatment to warranty the correct development of the turf during the autumn and winter..

## **REPAIRS OF TAR – ASPHALT PATHS**

By holes 12 and 15 North , and by the tunnel between holes 11<sup>th</sup> to 12<sup>th</sup> , during coming weeks we will continue with paths by the Club storage building, first tee north , and access from hole 4<sup>th</sup> to 5<sup>th</sup> South

## **FUTURE PLANS**

The future Plans are subject to the economical result of the year, as it is presented in the Manager's report, in addition to the works undertaken, we will proceed to execute at least Ladies tees of Hole 5 and 9 of Ladies, as well as the installation of nets for protection at holes 9<sup>th</sup> North and 1<sup>st</sup> South as well as the lane along the Driving Range..
